

PATHUSA

Premier IT Services

eINNOVATION DELIVERED!

Our Mission

As a small, minority, women-owned business, we believe that IT solutions should and can be affordable without compromising quality. We bring smart, strategic approaches to every project, opportunity, and decision to deliver meaningful results. Always on time, always as promised.

Who We Are

ePATHUSA was founded in 2005 as a global software consulting and outsourcing company of the highest standard. Always reliable, we provide strategic counsel and managed services to federal, state, commercial, and nonprofit entities.

SERVICES & SOLUTIONS

With over 15 years of professional IT service experience, ePATHUSA has provided a wide range of premium IT services. We specialize in the following core services:

▶ **Cloud Computing**

It's all about the cloud! We offer cloud-computing services from SaaS to PaaS, bundled separately or together.

▶ **Cloud Migration**

Need to move your assets to the cloud? No problem! ePATHUSA has you covered!

▶ **Cloud Security**

Keep your systems and data secure. We prevent, detect, and mitigate threats to your operations!

▶ **Data Science & AI**

The breakout features of the 21st century: Stay at the top of your industry with data analytics, machine learning, and other forecasting and prediction methods!

▶ **Advanced Software Development**

Need new, custom-made software to meet client and visitor needs? Or maybe you need to update your existing apps and web pages? Either way, we've got you covered!

▶ **Staff Augmentation**

Looking for the best IT talent around? Find the best designers, developers, and analysts to meet your project goals.

Case Study 1 - IRGC

The Challenge

The Iowa Racing and Gaming Commission (IRGC), which establishes and administers laws and rules over all licensed casinos and gambling entities in Iowa, needed to modernize their intranet licensing software applications to deliver a modern application that could satisfy users' needs.

The Solution

ePATHUSA developed a state-of-the-art electronic licensing system featuring a user-friendly navigation system and robust reporting and search capabilities all in a nonintrusive and secure database.

The Results

The new licensing system was successfully developed and deployed, allowing for seamless integration and decreasing client's cost of operations by approximately 22%.

The screenshot displays the 'Iowa Racing and Gaming Commission Web Licensing Application' dashboard. On the left is a dark blue sidebar with the IRGC logo and a menu including Dashboard, Individual / Business, Entity, Watchlist, Reports, Admin, Field Configurations, and ARCI Report. The main content area has a header with the commission name and a 'Web Licensing Application' subtitle. Below the header is a 'Dashboard' section with four key metrics: Pending Reviews (0), Licenses Expiring (0), Unpaid Rulings (0), and Total No of Licenses (0). The dashboard is divided into two tables: 'Pending DCI Backgrounds' and 'Unpaid Rulings'.

Name	License #	License Date Issued	Date Sent to DCI
Austin Seamon	15000164	02/26/2021	03/01/2021
Eric Grover	15000161	02/26/2021	03/01/2021

Name	Ruling #	Ruling Date	Fine Amount
Noah Lewis	8555	10/05/2019	100.00
Jamila Davis	8495	07/10/2018	150.00

[Overview](#) ▾[NERC Commission](#) ▾[Publications](#) ▾[Public Notice](#) ▾

EMPLOYMENT

NERC has jurisdiction to investigate complaints of discrimination in employment, including but not limited to, failure to hire, promotion, discharge, harassment, sexual harassment, disparate treatment, and retaliation.

Case Study 2 - DETR

The Challenge

The Department of Employment, Training & Rehabilitation (DETR), Nevada's lead workforce development agency, required a redesign of their legacy website to deliver a more adaptive and scalable experience.

The Solution

ePATHUSA updated the DETR website with an easy-to-navigate interface, attention-grabbing graphics, and integrated a fully-featured content management system. Spanish translation and mobile responsiveness were implemented.

The Results

DETR's web application portal has been up and running with 99.98% runtime over the past 4 years, providing DETR with visitor experience. High availability has allowed DETR to service more than 2 million visitors in 2020 alone.

Case Study 3 - IRGC

The Challenge

The IRGC's self-exclusion program was in need of hosting and maintenance the Self-Exclusion Database as well as ensuring current and future web-security standards and updates.

The Solution

ePATHUSA utilized Azure Government Server to provide high-level, industry-standard hosting and security.

The Results

Project timeline, including set up and migration, was fast tracked by 10 days. Decreased client's cost by approximately 20%.

Case Study 4 - Calpine

The Challenge

Calpine is largest generator of electricity from natural gas and geothermal resources in the United States. America's premier power generation company needed to address why and how changes in pricing and methods-time measurement (MTM) occur.

The Solution

ePATHUSA utilized and implemented cutting-edge data analytics and data mining business processes for reporting and analysis. Documentation and training were provided for future end users.

The Results

The analytical insight given to Calpine Corporation supported all ongoing and future strategic initiatives to proceed and lowered costs on future training.
